Leadership Pledge to Increase Degree Attainment In Indiana

Indiana has set a goal of reaching higher in building a well-educated workforce. Yet, according to the Lumina Foundation, 740,000 Hoosier adults (or one in five adults) have some college experience but no degree. State leaders have expressed their commitment to address the skills gap that exists in Indiana and I wish to be part of the solution.

Therefore, I pledge to join WGU Indiana and other Indiana colleges and universities in their effort to respond to the Indiana Commission for Higher Education’s challenge to help more Hoosiers reach higher and achieve more through degree attainment. I will leverage my role as a leader to promote the value of an educated workforce and, to demonstrate this commitment, I resolve to take specific actions to encourage my employees/constituents to go further in their education.
